# MANAGING DIRECTOR'S MESSAGE

## TYPA MISSION STATEMENT

*TYPA's mission is to develop healthy, well-rounded, confident youth, enthusiastic about learning through their participation in safe, dynamic, fun-filled recreational experiences. Critical to providing these quality experiences and meeting the changing needs of the international community is the professionalism of our staff, the dedication of our volunteers and the support of our families.*

**W**elcome to a mask-free edition of the TYPA Activities Magazine! It feels so good to write that after the last two years when the beautiful smiles of our children were hidden away behind masks.

TYPA has become the "third place" for our community after home and school. We not only provide quality sports, recreational and educational programs but also opportunities for families to meet, socialize and develop relationships in our community.

Those opportunities were greatly missed during the challenging pandemic times but we are back to "normal" now and it was with an enormous amount of joy that we welcomed back all of our international community to the campus. They were sadly missed. As Joni Mitchell so eloquently sang, "Don't it always seem to go, that you don't know what you've got 'til it's gone."

Over the last 43 years of its existence, TYPA has faced many challenges from typhoons, water shortages, SARS, COVID and even other challenges we could not ever have imagined! But throughout it all, we have survived and flourished because of the incredible support and encouragement of our friends in the community.

After the challenges of the pandemic, we are so glad to be back and running at full capacity serving the international youth we were created to serve.

Best wishes,

*Gerry Moran*

# SPORTS

**f TYPA SPORTS**

## GENERAL INFORMATION

The TYPA sports calendar is divided into three seasons. The basketball season starts with the new school year and generally finishes close to Halloween. Soccer follows basketball and straddles the first and second semesters. Baseball is the final team sport and is completed during the last weeks of the school year. **Both basketball and soccer are registered as fall semester programs, while baseball is registered as a spring semester program.** Children of all abilities are welcome to join in the excitement of our sports programs. Each player will receive a team jersey, team photo, team souvenir and participate in an end-of-season awards ceremony.

As our goal is to develop each player's skills and knowledge of the game, we strive for teams to be as evenly matched as possible. For athletes in 2nd through 5th grades, there is a mandatory skill assessment done by our sports staff. Players will be placed on a team once the assessment has been completed. Please be aware of the registration cutoff dates as we cannot give refunds or credits after this date.

When sports practices are cancelled due to bad weather or other unforeseen circumstances, refunds, credits or make ups will not be given. Games may be cancelled due to severe weather or poor air quality.

**KA and K-1 athletes must be accompanied by their parents on Saturday game days.**

## I TENNIS

TYPA Tennis is a great opportunity for your child to learn various tennis techniques with our outstanding tennis coaches.

Tennis students will need to purchase their own tennis rackets to be used for tennis lessons. Tennis or sports shoes must be worn to avoid injuries and students will also need to wear proper sportswear in class.

All tennis lessons are scheduled in the following manner:

Toward the end of each semester, re-registration for continuing students takes place. During open registration, any available spaces remaining are offered on a first-come, first-served basis. If a desired coach or time is unavailable, names are placed on a waiting list. All waiting lists and special requests are purged at the end of each semester.

### Cancellation Policy

After the second week of the semester, no credits or refunds will be given due to withdrawals and no schedule changes will be allowed. There will be no credits or refunds for missed tennis clinics, group lessons, or semi-private lessons. Private lessons are allowed one cancellation per semester, but the cancellation must be done at least 24 hours in advance. Please note, canceled tennis lessons will not be made up.

Regarding injury cancellation, we will only issue a refund to injured students if they withdraw for the rest of the semester. This will be on a prorated basis. A \$500 processing fee will be deducted from the remaining program cost and the TYPA Registrar must be informed as soon as possible of the injury. Please provide a medical certificate when applying for an injury refund. Once the injury application has been submitted, the student will lose priority registration for the re-registration period.

Announcements on the cancellations of tennis lessons due to inclement weather will be made at 2:00 pm on the day of the lesson.

Cancellation text messages will be sent to parents once the cancellation is confirmed. If the cancellation is made after 3:45 pm, tennis coaches will contact the parents individually. Parents can call the TYPA office to inquire about cancellations after 2:00 pm. Lessons canceled by TYPA will be credited or refunded at the end of the semester.

Our music instructors are exceptionally talented with a wealth of experience, and most possess Master of Music degrees specializing in music performance with many still performing in recitals and concerts throughout the year.

Students should either own or rent their own instrument for weekly practice. While TYPA doesn't sell or rent instruments, we can assist you in finding one either to buy or for rent. A music recital will be held at the end of the school year and each student has the option to participate.

MUSIC AGREEMENT

Music lessons can begin at any time during the semester depending on availability and lessons will be prorated from the actual starting date.

Every parent and student is required to read and understand the TYPA Music Agreement. The Music Agreement is available at the TYPA office, on our website, or in the TYPA Music Notebook.

Please do not enroll in the TYPA music program unless you are able to make a weekly commitment to your music lessons. In the event you are not able to make a class, a friend or family member will not be allowed to take that class for you unless they are already a student of the same TYPA music teacher.

🔖 *Each student is only allowed one make up lesson per semester (except Camp Taiwan).*

Please note that there may be additional costs for music books.

RECITALS

There will be an annual music recital held at the end of the Spring semester. It will take place in April and/or May on the Taipei American School campus. The music recital is an excellent opportunity for students to boost their confidence and show off their skills in front of an audience!

CANCELLATION & MAKEUP LESSON

After the second class of the semester, no credits or refunds will be given due to withdrawals. There will be no credit or makeup for missed group and semi-private lessons. # MARTIAL ARTS

## GENERAL INFORMATION

TYPA offers martial arts classes in four distinct disciplines – Aikido, Karate, Ninja, and Taekwon-Do. Martial arts teaches respect, courtesy, self-discipline, and improves flexibility, strength, stamina, health, and fitness.

Discipline, attitude, and respect for martial arts will be emphasized in each class. Examples of the above guidelines include promptness to class, proper wearing of uniforms, and respect for the martial arts master and fellow students.

All TYPA martial arts classes are minimal body contact with occasionally sparring practice for students at a more advanced level.

### Belt Advancement Tests

Each martial arts discipline has a colored belt (ranking) system allowing students to set their goals and challenge themselves. Testing criteria will not only include skills, but also discipline, attitude, and respect displayed

throughout the semester. Students will not advance to the next belt level unless all these criteria are met to the satisfaction of the instructor. It is not mandatory to take the test, however, it is recommended if your child would like to advance to the next level.

♥ *Students will be required to purchase a uniform in the beginning of semester and students will have the opportunity to take a test at the end of the semester. Please note there will be an additional cost for tests.*

### Dress Code Policy for Martial Arts

Students will be required to wear a specific uniform for each discipline. They are required to purchase their own uniforms with assistance from the instructor. Students must be in a properly fitted uniform by the third lesson or they will not be able to participate in class. Each discipline has its own unique uniform and a different belt system.

## AIKIDO

Aikido in its present form was developed in Japan in the early 20th century. Aikido is seen not only as a system of self-defense, but also as a means of self-cultivation and improvement. It is unique among martial arts in that the majority of techniques are based on aggressors making the first move and using their energy and momentum to neutralize them.

### Aikido

#### Grades: 3-12

On a physical level, Aikido involves some throws and joint locks. It focuses not on punching or kicking, but rather on using the opponent's energy to gain control and throw him away from you.

## Summer Tech Camp

### Grades: 1-6 (in Fall 2023)

**JUN. 12 - JUL. 21**

Students will combine engineering skills, scientific inquiry, and design thinking skills to explore the problems that scientists and engineers all around the world are trying to solve!

We will use a range of maker tools, microcontrollers, sensors, mechanical building blocks, and child-friendly coding applications to explore 3 central themes:

**1. Surviving in Space:** we will build inventions that demonstrate how mankind can get to space, explore the terrain, and survive with no infrastructure. Examples include rocketry, growing food in space, and astronaut suit technology.

**2. Ocean & Climate:** we will build prototypes of devices that marine biologists and climatologists use to explore our most precious planetary systems such as the deep oceans,

wild rainforests, and Antarctica. Examples include ice drilling and data collection, wildlife tracking, and deep-sea pressure monitoring devices.

**3. Smart Cities & Health:** We will explore cities of the future with connected roads and environments - and how our habits and health can improve with connected devices. We will use different sensors such as accelerometers, thermometers, and pulse sensors to detect data about ourselves and how this can keep us safe.

Whether you're a grade 1 student writing your first algorithm or a skilled builder that's ready to hack some hardware, our experienced STEM instructors will prepare age-appropriate projects and tools. These Tech Camps are designed to meet your child where they're at with their technology journey and take them on a tech quest to help humanity thrive!
